# CNB 68

The successor to the CNB 66, the new CNB 68 offers the same user-friendliness as her predecessor with an open-plan galley, while optimising the volume of the guest and master cabins. Now equipped with two genuine VIP cabins, a crew cabin and a laundry area, the CNB 68 offers unrivalled features in her category. Taking up the new coachroof profile which was so successful on the CNB 62, Philippe Briand has stretched the lines to achieve a subtle balance between protection and sportiness. Versatile, the CNB 68 can be equipped with a performance rig or, for longer voyages, a carbon arch. The interior design by Jean-Marc Piaton echoes the CNB core values while bringing a real stylistic evolution with more lightness and freshness. The CNB 68 is a high-performance, comfortable and family-friendly sailing yacht. Whether you are sailing with a crew or alone, you will enjoy its immense open-plan interior and all the technical solutions that have been tried and tested on the CNB 62 and CNB 78.

Vincent Arnaud

In designing the CNB 68, we wanted to surpass what we had already achieved with the CNB66. By adding a second chine and optimizing the overall hull and rig parameters, the efficiency along with the seaworthiness are further enhanced, while providing additional living space and comfort both inside and on deck. Without a doubt, the CNB68 will be a worthy successor in the CNB yachts line and the new benchmark for sailing yachts of this size for the years to come.

Its sleek line with two chines promises performance and comfort at sea.

Interior design  
Piaton Yacht design

This new CNB 68 continues the open spirit of the iconic 66. For this latest model in the range, we wanted to further evolve the interior style, giving it a more contemporary and lighter expression. Every detail, every material has been thought and carefully selected to achieve the highest level of finish, functionality, and «French Elegance» staying true to the brand's DNA.
